👤 PROFILE

Full-Stack Developer with **6+ years of experience** building scalable web applications with **PHP/Symfony** and **Angular**. Specialized in **REST API** design, **DDD/CQRS** architectures and high-traffic platforms (cinema, telecom, banking). Recognized for strong analytical skills, attention to detail, and the ability to ramp up quickly on new technical contexts.

<> TECHNICAL SKILLS

📦 BACKEND PHP 8.x · Symfony 3.4 / 4.4+ · API REST · DDD · CQRS · Hexagonal Architecture	💻 FRONTEND Angular 2 to 9+ · NgRx · TypeScript · JavaScript · HTML5 · CSS3 · Twig · Bootstrap
📦 DATABASES MySQL · PostgreSQL · Redis	⚙️ DEVOPS & TOOLS Docker · CI/CD · Git · GitLab · Jenkins · AWS · Apigee
✅ TESTING & QUALITY PHPUnit · Behat · Jest · PHPStan · PHPCS · Codeception	🔗 INTEGRATIONS Adyen · Payline · NAPS · ANCV · Auth0 · Salesforce · Vista
🌟 AI & PRODUCTIVITY Claude Code · Gemini · Codex · n8n	👥 METHODOLOGY Agile / Scrum · PSM I · Code Review · TDD

🏢 PROFESSIONAL EXPERIENCE

Full-Stack Developer

📅 May 2023 – Present

JEMS Group — Client: Pathé Cinemas

📍 Levallois-Perret / Paris

- Full-stack development of a large-scale cinema booking and order management platform — **Symfony 4.4 / PHP 8.2** backend, **Angular 9 / NgRx** frontend.
- Design and maintenance of **REST APIs** following **DDD** principles and the **CQRS** pattern.
- Integration and migration of payment solutions: **Adyen**, **Payline**, **NAPS**, **ANCV**.
- Third-party integrations: **Vista** (cinema management), **Auth0** (authentication), **Redis** (caching & events), **Salesforce** (CRM).
- Quality & testing: **PHPUnit**, **Behat**, **Jest**, **PHPStan**, **PHPCS** — **Docker** environment with **CI/CD** pipelines (GitLab, Jenkins).
- PHP version migrations and deprecation fixes.

Full-Stack Developer

📅 Nov 2020 – Mar 2023

Bouygues Telecom Entreprises

📍 Paris (via Talan Tunisia, then direct)

- Worked within a team of 7 developers on a suite of customer incident ticketing applications (fixed lines, mobile, cloud) using **PHP/Symfony 3.4 and 4.4** and **PHP/Zend**.
- Designed and exposed **REST web services**, delivered new business features.
- Resolved production incidents, fixed bugs and continuously improved code quality.
- Unit testing, code reviews and rotating **Scrum Master** role.
- Client support and on-call duties (business hours / non-business hours).

Web Developer — Freelance

📅 Nov 2020 – Aug 2021

Facnote (Groupe Facnote, accounting software publisher)

📍 Remote

- Full-stack development of business applications using **Symfony** / **PHP** / **MySQL**.
- Backend (controllers, services, business logic) and frontend integration (**Twig**, **JavaScript**, **jQuery**).
- Design and implementation of monitoring and configuration interfaces.
- **SQL** query optimization, legacy code refactoring and bug fixing.

Full-Stack Developer Symfony / Angular

📅 Jan 2019 – Nov 2020

Talan Tunisia

📍 Tunis, Tunisia

Client: Sagemcom

Dec 2019 – Nov 2020

- Built **from scratch** (**Symfony 4.4** / **Angular 7**) a purchase order publishing platform for production and non-production suppliers.
- Designed, developed and exposed **REST web services** on the backend.
- Integrated UI mockups, consumed web services and delivered features on the frontend.

Client: BNP Paribas

Jan 2019 – Dec 2019

- Developed a platform for digitizing resource management supports, activities and methodologies (**Symfony 4** / **Angular**).
- Major frontend contribution: mockup integration, feature development and **REST web service** consumption.
- Continuous backend code quality improvements (API).

☆ PERSONAL PROJECT

Interactive Portfolio — fares-khiary.com

Modern, responsive landing page featuring 3D graphics, an AI-powered chat assistant built on the ChatGPT API (configured to answer questions about my career and background) and a futuristic space theme.

Stack: **Hostinger VPS**, **n8n** (backend AI automation), **Supabase** (database / authentication).

🎓 EDUCATION

Intensive Full-Stack Web Development Training

2018

Talan Academy (12 weeks) & Go My Code (3 months) — PHP/Symfony, Angular, JavaScript, MySQL, Git

Engineer's Degree

2013 – 2018

National Institute of Applied Science and Technology (INSAT), Tunis

High School Diploma in Mathematics — With Highest Honors

2012

Lycée Beni Khalled, Tunis

🏆 CERTIFICATIONS & LANGUAGES

Certifications: Professional Scrum Master I (PSM I) — Scrum.org • 20+ web development certifications (PHP, Symfony, Angular, JavaScript, etc.)

Languages: Arabic (native) • French (professional) • English (professional) • German (basic)

Interests: Game development, AI applications, technical innovation
