🏢 PROFESSIONAL EXPERIENCE

Full-Stack Developer

JEMS Group — Client: Pathé Cinemas

📅 May 2023 – Jul. 2026

Levallois-Perret / Paris

- **Complete redesign of the purchase funnel** on the high-traffic ticketing platform: migration to **Symfony 7 / PHP 8.2** and **Angular 21**, rewriting the front-end architecture (standalone components, **Signals**, **NgRx** state management) and reworking the checkout UX/UI.
- Design and maintenance of **REST APIs** following **DDD** principles, the **CQRS** pattern and **hexagonal architecture**.
- Integration and migration of payment solutions (**Adyen**, **Payline**, **NAPS**, **ANCV**) and third-party services: **Vista**, **Auth0**, **Redis**, **Salesforce**.
- Deep involvement in the **continuous integration cycle**: **CI/CD** pipelines (GitLab & Jenkins), **Docker** environments, code quality (**PHPStan**, **PHPCS**, **PHPUnit**, **Behat**, **Jest**) and code reviews.
- Contribution to **project management**: writing technical & functional specs in **Confluence**, creating and tracking **Jira** tickets.
- Daily use of **Claude Code** (commands, skills, agents) to speed up development, refactoring and testing.

Full-Stack Developer

Bouygues Telecom Entreprises

📅 Nov 2020 – Mar 2023

Paris (via Talan Tunisia, then direct)

- Within a 7-developer team: suite of **customer incident ticketing** applications (fixed lines, mobile, cloud) using **PHP/Symfony 3.4 & 4.4** and **PHP/Zend**.
- Front-end development of business interfaces in **Vue.js 3**, integrated with **REST web services**.
- Design and exposure of REST web services, delivery of new business features and resolution of production incidents.
- Unit testing, code reviews and rotating **Scrum Master** role; client support and on-call duties (business / non-business hours).

Web Developer — Freelance

Facnote (accounting software publisher)

📅 Nov 2020 – Aug 2021

Remote

- Full-stack development of business applications using **Symfony / PHP / MySQL**.
- Backend (controllers, services, business logic) and front-end integration (**Twig**, **JavaScript**, **jQuery**).
- Monitoring & configuration interfaces; SQL query optimization and legacy code refactoring.

Full-Stack Developer Symfony / Angular

Talan Tunisia

📅 Jan 2019 – Nov 2020

Tunis, Tunisia

Client: Sagemcom

Dec 2019 – Nov 2020

- Built **from scratch (Symfony 4.4 / Angular 7)** a purchase-order publishing platform for production & non-production suppliers.
- Design and exposure of **REST web services**; UI mockup integration and front-end feature development.

Client: BNP Paribas

Jan 2019 – Dec 2019

- Platform for digitizing resource management (**Symfony 4 / Angular**) — **major front-end contribution** (mockup integration, features, REST API consumption).
- Continuous back-end code quality improvements (API).
