PROFILE

Full-Stack Engineer with 5+ years of experience building scalable web applications using PHP (Symfony) and Angular. Experienced in REST API design, and large-scale booking platforms. Background in chemical engineering with strong analytical and problem-solving skills.

PROFESSIONAL EXPERIENCE

Full Stack Developer — JEMS Group (Client: Pathé Cinemas)

May 2023 – Present

Neuilly-sur-Seine / Paris, France

- Full-stack development on a large-scale cinema booking and order management platform using Symfony 4.4 / PHP 8.2 (backend) and Angular 9 / NgRx (frontend).
- Design and maintenance of REST APIs following Domain-Driven Design (DDD) and CQRS (Command Query Responsibility Segregation) pattern.
- Integration and migration of payment solutions: Adyen, Payline, NAPS, ANCV.
- Third-party integrations: Vista (cinema management), Auth0 (authentication), Redis (caching/events), Salesforce (CRM).
- Code quality and testing: PHPUnit, Behat, Jest, PHPStan, PHPCS.
- Dockerized environment with CI/CD pipelines (Git, GitLab, Jenkins).
- PHP version migrations and deprecation fixes.

Full Stack Developer — Bouygues Telecom Entreprises

Nov 2020 – Mar 2023

Paris, France (via Talan Tunisia from Nov 2020 to Sept 2021, then direct)

- Developed within a team of 7 developers on a suite of customer incident ticketing applications (fixed/mobile/cloud lines) using PHP/Symfony (3.4 and 4.4) and PHP/Zend.
- Built business features, designed and exposed REST web services.
- Production incident resolution and bug fixing.
- Unit testing, code review, and continuous code quality improvement.
- Rotating Scrum Master within the team.
- Client support and on-call activities (business hours / non-business hours).

Web Developer — Facnote (Freelance)

Nov 2020 – Aug 2021

Remote

- Full-stack development within Groupe Facnote (accounting software publisher) on business applications built with Symfony (PHP) and MySQL.
- Backend feature development (controllers, services, business logic) and frontend integration (Twig, JavaScript, jQuery).
- Design and implementation of monitoring and configuration interfaces.
- SQL query optimization, bug fixing, legacy code refactoring, and functional enhancements.

Full-Stack Developer Symfony/Angular — Talan Tunisia

Jan 2019 – Nov 2020

Tunis, Tunisia

Client: Sagemcom

Dec 2019 – Nov 2020

- Built from scratch (Symfony 4.4 / Angular 7) a purchase order publishing platform for production and non-production suppliers.
- Designed, developed, and exposed REST web services (backend).
- UI mockup integration, web service consumption, and feature development (frontend).
- Continuous code quality improvement, code review, and unit testing.

Client: BNP Paribas

Jan 2019 – Dec 2019

- Developed a platform for digitizing resource management supports, activities, and methodologies (Symfony 4 / Angular).
- Major frontend contribution: mockup integration, feature development, REST web service consumption.
- Continuous backend (API) code quality improvement.

PERSONAL PROJECT

Portfolio Landing Page — fares-khiary.com GitHub

- A modern, interactive portfolio landing page featuring 3D graphics, an AI-powered chat assistant built on the ChatGPT API (trained to answer questions based on my career and personal background), and a futuristic space theme. Fully responsive (mobile-friendly).
- Stack: Hosted on Hostinger VPS, n8n for backend AI automation, Supabase (database / authentication).

TECHNICAL SKILLS

Backend:	PHP 8.x, Symfony 3.4/4.4+, REST APIs, DDD, Hexagonal Architecture
Frontend:	Angular (2–9+), NgRx, JavaScript/TypeScript, jQuery, HTML5, CSS3, Twig, Bootstrap
Databases:	MySQL, PostgreSQL, Redis
DevOps / Tools:	Docker, CI/CD, Git, GitLab, Jenkins, AWS, Apigee
Testing / Quality:	PHPUnit, Behat, Jest, PHPStan, PHPCS, Codeception
Integrations:	Adyen, Payline, Auth0, Salesforce, Vista, Redis
Methodology:	Agile / Scrum
AI & Tools:	Claude Code, Gemini, Codex, n8n

EDUCATION

Engineer's Degree in Industrial Chemistry	2013 – 2018
National Institute of Applied Science and Technology (INSAT), Tunis	
Bachelor's Degree in Mathematics — With Highest Honors	2012
Lycée Beni Khalled, Tunis	
Intensive Full-Stack Web Development Training	2018
Talan Academy (12 weeks) & Go My Code (3 months) — PHP/Symfony, Angular, JavaScript, MySQL, Git	

ADDITIONAL INFORMATION
